

## Personal Report

<b>Name:</b>	Zachary Wolf
<b>Project:</b>	2B

**Write down each group member's contributions in the project, including yourself:**

Team Member	Contributions
Jarren Back	1. Library Class Design and Implementation 2. Book Class Design and Impl. 3. Initial Testing 4. Github Management 5. Algorithm Development
Zachary Wolf	1. Library Class Design 2. Priority Queue Design and Impl. 3. Testing functions Design and Impl. 4. Employee Class Design and Impl. 5. Algorithm Development & UML
	1. 2. 3. 4. 5.

**Write down what you learned:**

1. More practice with class interactions
2. Proper UML Design
3. Testing Methods
4. Github troubleshooting
5. How to use and implement a priority queue

**Feedback about the project (comments, suggestions for improvement, etc.)**

1. This project was a bit easier to code than our last project
2. Still was unsure on a few of the behaviors (like a new employee while others work)
3. Much less code than previous ones.
4. The tasks were relatively easy to divide.
5. Github was easy to use for this project for the same reason
